While feature activity for turkey items at retail outlets is about steady with last week, the number of stores running no price specials is down significantly. Featuring of frozen whole birds is more active than last week at about steady price levels but most ads were posted early in the ad cycle. Breast cuts continue to enjoy active featuring lead by rotisserie breasts at higher average feature prices and by breast cutlets at slightly lower price levels. Ground turkey feature activity is down slightly from last week on lower average price levels. An increase in average ad prices for 85% lean and sausage items is being offset by a drop in prices and an increase in activity for
